

hold me raw

sometimes I feel like I'm
gonna go stark raving
spontaneously-disintegrating-into-a-
cloud-of-randomly-circulating-electrons
batshit crazy mad if I can't
roll over in bed into the
arms of someone who'll love
me and hold me when I feel
raw scared insecure uncertain lonely
even if it's only for a few
minutes every few years so I
don't feel so goddam
alone in this world.
