

mother junkie

mother junkie has found a new fix
lonely + desperate
sick of trying
tired of waiting
this is the one.

no second thoughts
he takes her straight in
 straight into his veins
 straight into his bones
a double shot of morphine
 right between the eyes
the visions come
fairy tale poison
 she can save me.

no more pain
 he lives again
no more doubt
 he is strong again
no more fear
 he is free again.

for now.
